Career Objective

M.Sc. Economics student specializing in Data Analytics, with a strong interest in solving real-world problems through data. Hands-on experience working with large, complex datasets applying statistical modeling, time series forecasting, and segmentation techniques to draw out patterns that matter. Proficient in Python, SQL, and Excel, with additional exposure to R, Power-BI, and econometric tools like E-views and Stata. Looking for a Data/Business Analytics internship to apply this analytical mindset to real-world business problems

Education

- **M.Sc. Economics(Specialization: Data Analytics) - from July'25 to May'27 (expected)**
Symbiosis School of Economics, Symbiosis International University, Pune
- **B.A. in Economics (Hons) - from Oct'22 to May'25**
KIIT School of Economics and Commerce, Kalinga School of Industrial Technology, Bhubaneswar ; graduated with 8.6 C.G.P.A.

Certifications

- Business Analytics (Internshala)
 - Introduction to Python Programming- University of Pennsylvania(Coursera)
 - Social Media Data Analytics- University of Washington(Coursera)
 - Generative AI: Introduction and Applications(Coursera)
-

Internships

Market Research Intern- Marketysers Global Consulting LLP, Pune- May 2026 to July 2026(Hybrid)

- Worked with large, complex datasets across 150+ market segmentations ("Cut") reports spanning healthcare, defense, AI/tech, and automotive industries- building direct data manipulation and segmentation experience.
- Analyzed data across multiple dimensions (component, application, technology, end-use) and 30+ global markets, identifying patterns to support market strategy recommendations.
- Collaborated within a research team, maintaining accuracy and consistency across high volume report cycles, strengthening cross-functional communication and teamwork; received a "Good" performance rating.

Assam Women's University, Jorhat - May 2024 to July 2024

Worked under the supervision of Dr. Kaushik Handique, Head of the Department, Department of Business Management

- Designed a questionnaire and administered a structured socio-economic survey of 300 respondents on the Impact of Social Media on Body Image In Young Women, applying basic statistics and hypothesis testing.
 - Cleaned and analyzed primary data using SPSS to identify statistically significant patterns and trends.
 - Presented findings through a structured research report, applying data visualization and presentation skills to communicate insights clearly to academic stakeholders.
-

Academic Projects

"The Relationship between consumer spending and carbon emissions in India"

- Conducted time series analysis using E-views to examine relationships between household consumption, unemployment, renewable energy use, GDP and carbon emissions in India(2000-2023).
 - Applied quantitative economic analysis and data manipulation to a multi-variable dataset sourced from World Development Indicators 2025.
-

Other Skills

- Technical: Proficient in Python, SQL, MS Excel, R, Power-BI, Stata, SPSS, E-views, gretl
 - Core Competencies: Data Manipulation, Time Series Forecasting, Quantitative analysis, Basic Statistics and Hypothesis Testing, Market Segmentation & Market Analytics, Data Visualization and Presentation, Communication and Interpersonal Skills.
 - Languages known: Fluent in English, Hindi, Bengali
-

Extra-Curricular Activities & Achievements

- Accomplished kathak dancer.
- Won in various external art and painting competitions.
